

University of Leeds and Manchester

Year 3

Learning Updates

Week ending 07.01.22

HAPPY NEW YEAR!!!!

During our first week back in year 3, we have been very excited to be welcomed back in our classrooms ready for the Spring Term.

We have worked incredibly hard to settle back into school life, following school routines and rules after an extended break over Christmas.

In English, we have learnt about the key features of a recount, read different examples of 'What A Good One Looks Like' (WAGOLL) and have written our own recounts of our holiday break using the success criteria for writing.

Check out our new school website: www.kingsland.bham.sch.uk

Our class pages will be available to view very soon!

Science

In Science this half term the children will be learning about the topic of Forces and Magnets.

This week, we have been introduced to the topic by looking at pushes and pulls as the forces acting on objects.

Can you complete the home learning challenge on pushes and pulls?

Please practice your science key vocabulary on the knowledge organiser attached to this sheet.

Other Information

Myon Reading

Please encourage your child to access Myon using their account details and click on the project folder icon.

This has been set up by your class teacher to include a variety of books carefully selected to link to our current learning topics for your child to read at their leisure at home. The teacher has a record of who logs on and what books have been read.

Topic Knowledge Organisers

Please find the Spring Term Knowledge Organisers for each topic attached for your child to refer to for key vocabulary and resource links to use throughout the half term. These are also available in colour on our school website, under the 'our school' tab and then click on our curriculum and each subject area.
